

HW4 Report, Groupy: A Group Membership Service

David Fischer

September 29, 2025

1 Introduction

2 Implementation

2.1

2.2

2.3

2.4

3 Main problems and solutions

3.1 Given Modules

3.2 Incrementing

The problem: When a slave ignores a message, it still increments its sequence number $N+1$, but it never sends the acknowledgment.

placeholder

3.3 What could possibly go wrong

4 Conclusions
